Everyday Skin Care Routine

Everyday Skin Care Routine

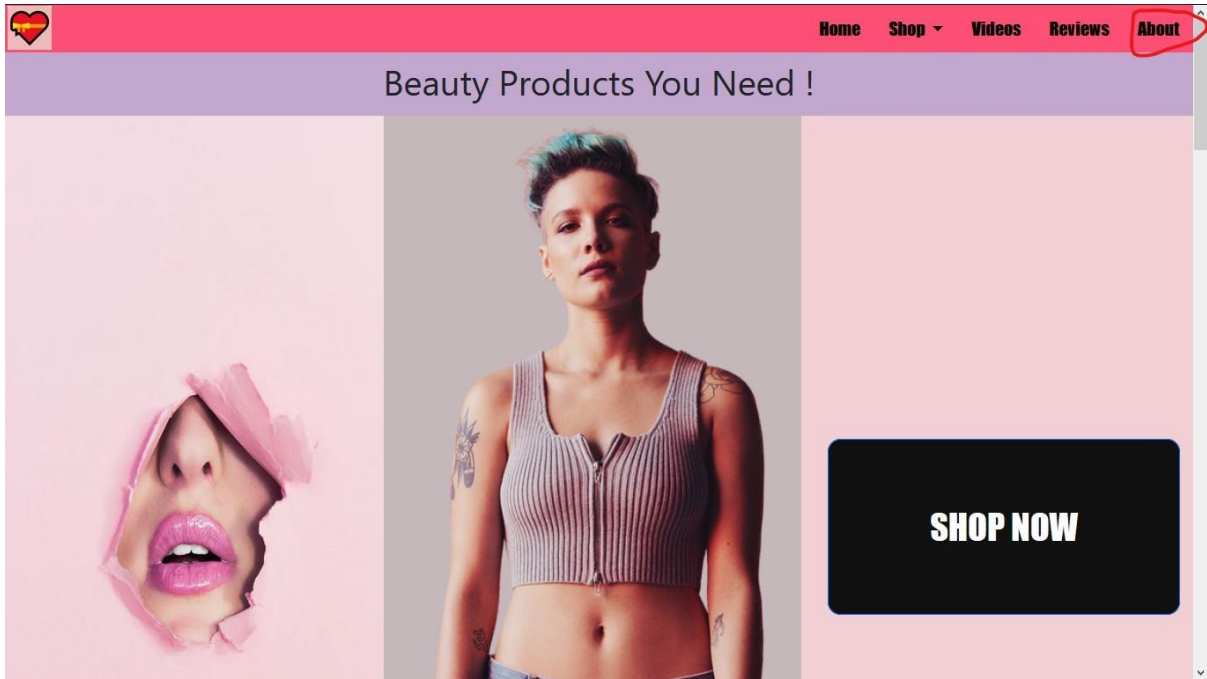

Past reviews [Submit](#)

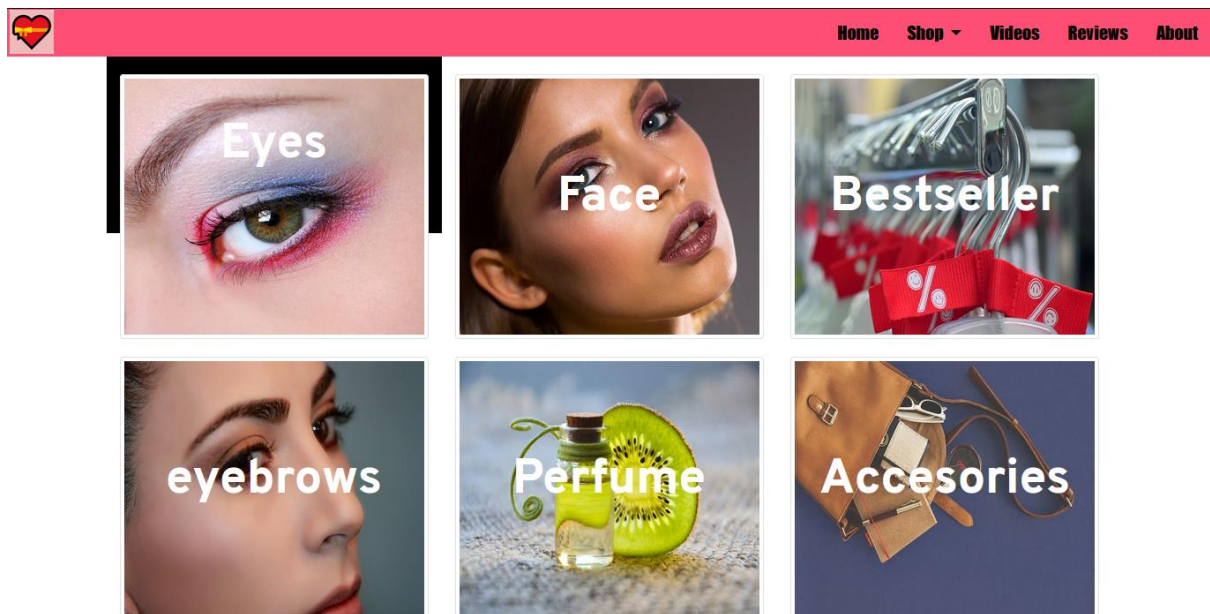

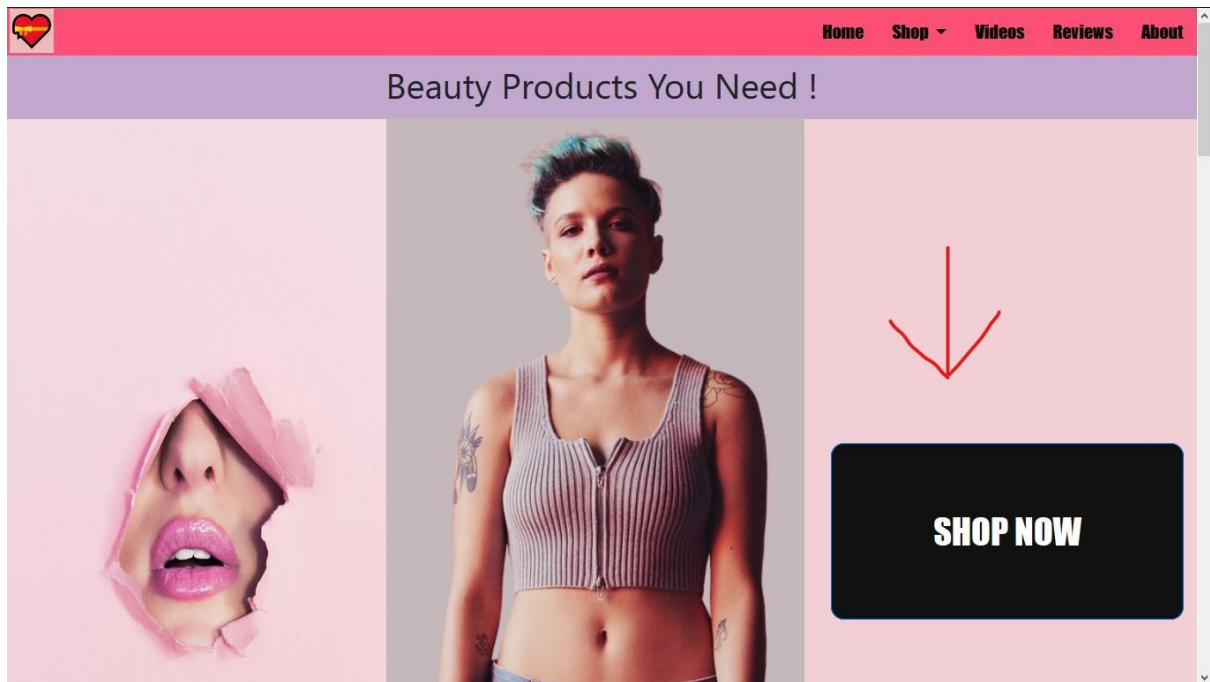

I bought a pack of two, comes in a nice packaging. Product is original and helps to restore your body cells also it's lasts for at least 6-7hours honestly. Please guys make sure the neck of bottle and the pump works properly because when i tested it the pump literally came out into my hand.

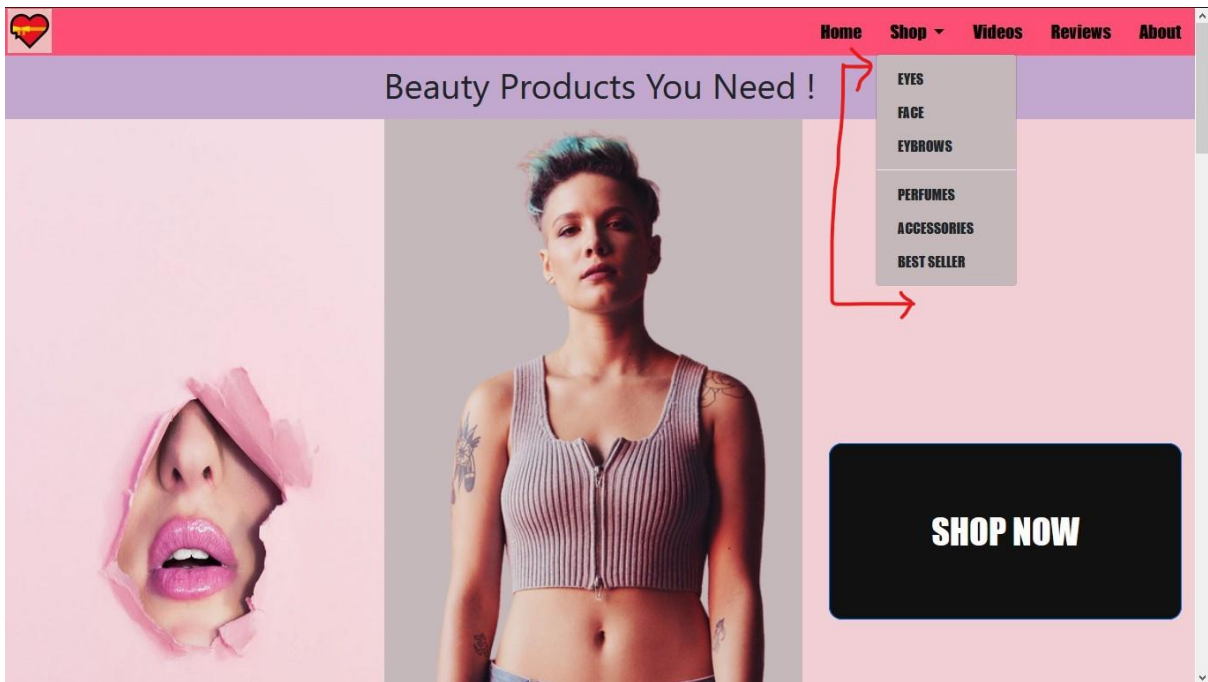

my work keeps me outdoor most of the day and in winter with all the dust, sun my skin becomes dry quite quickly. This moisturizer keeps the skin moisturized whole day after application in the morning. It has a decent scent, not too strong. While applying I can feel the molecules which keep the skin moisturized longer. I would recommend this product and definitely would buy again

ABOUT

Skincare and makeup go hand in hand and CÅ Skin was something I dreamt up soon after CÅ Cosmetics. I've been working on this for what feels like a lifetime so I can't believe it's finally here! Building my makeup line from the ground up has taught me a lot and I'm so blessed with that knowledge to apply to my brand new company! Birthing a whole new team, manufacturing, fulfillment etc. separate from my cosmetics line was challenging but here we are! I got the best of the best for you guys! Everything is cruelty free, vegan, gluten free, paraben and sulfate free and suitable for all skin types. Make sure you follow @CÅskin to stay updated. So much love went into this. It all starts with skin. xo, CÅ ❤️
